The DeWall's price, performance, efficiency and quality can't be beat by other panel saws on the market. When combined with the optional automatic infeed system, your plant will experience a new level of automation.

Below are just a few of the DeWall's features:

- Loads board definitions from a job file or allows manually creating boards using the touch-screen computer
- Optimizes lumber using sawyer-defined "fill" boards when necessary for better optimization
- Capable of cutting two boards at once, 2x4 to 2x12
- UP cut motion is fast and accurate
- Standard with ink jet printer to mark the 'side' of the board for easy to read placement
- Safe and efficient to operate
- The software generates a pick list
- Servo controlled pusher for accurate lengths
- Auto double stacking and additional ink heads available

WASSERMAN & ASSOCIATES, INC.

2341 Shepard Rd, Milford, NE 68405

Phone: 800-382-0329

Fax: 402-761-2422

More DeWall features are listed below:

- Uses a positive lumber pusher
- Inks on the side of the board
- Up cut motion for faster cutting
- Creates a pick list for optimization
- Uses a 22 inch blade, cuts up to 2x12
