ROOF GANTRY 14/16 RT

- Productivity

- Quick traveling time to maximize production
- Rugged 24" diameter roller resists deflection
- Built in ejectors make truss removal effortless
- System is easily expandable for additional truss set-ups
- Tables are available to accommodate computerized jiggling which minimizes jiggling time
- Raised track system provides a safer work environment
- Solid table, no walk through
- Optional - Table can accommodate Auto Press 14/16 RT

- Heavy Duty Construction for long life

- Powered by a heavy duty 7½ HP motor
- Fully machined and balanced roller provides smooth, quiet operation
- Soft start module cushions the drive system to extend component life
- Sturdy ¾" steel top tables easily seat connector plates
- Formed steel end housings provide higher strength than casting
- 16 bearing equipped bogie wheels transmit pressing loads
- Safety bars & disc brakes assist stopping for added safety

- Specifications

WORKING WIDTH	14' / 16'
ROLLER DIAMETER	24" dia.
WALL THICKNESS	1' nominal
DRIVE SHAFTS	4' dia. chromemoly
MAIN BEARINGS	37/16" ball bearings
BOGIE WHEELS (16)	1½"
TABLE TOP (Standard)	¾" steel plate
TABLE TOP (Optional)	1' steel slotted top
TABLE TOP (Optional)	Wood / steel / plastic combinations
TRUSS EJECTORS	Built in each table
DRIVE MOTOR	7½ HP
VOLTAGE	230/460/575V 3 phase
